

Demystifying The Migrant Student Information Exchange (MSIX)

How to access and use the information to
help migrant students

The Michigan Special Populations
Conference
9.24.2013

Agenda

- Introductions
- Searching students in MSIX
- Navigating Search Results
- Using the data to help students
- Producing and Using MSIX reports

Introductions

- Andrea Carter, Novel Management Group
 - Andrea.carter@novelmg.com
 - 502.345.9537
- Michigan Migrant Program Participants
 - Recruiters
 - Advocates / student services
 - Data specialists

MSIX “Quiz”

- How many states are sending data to MSIX?

49

- Of the states sending data, how many are sending information from all 4 categories to MSIX?

34

MSIX sign in page -> implementation status

Searching students in MSIX

- Utilize the “wild card” function when unsure of a spelling of a student’s name
- The “wild card” represents any letter in the alphabet
- Can be used multiple times in a name
- Useful with names that could be spelled with a z/s or b/v

% = wild card

Searching students in MSIX

Basic Student Search

Please enter your search criteria below. Ensure that your search contains at least one of the following elements:

1. Student MSIX ID.
2. State Student ID.
3. Student First, Middle, or Last Name.

Partial searches are allowed by entering at least one character and selecting the "Partial" search option. Use "Exact" to search for an exact match on the information that you entered in a given field.

Please click [Advanced Search](#) for a more in-depth search capability.

[Non-English Character Instructions](#)

Navigating Search Results

- Depending on the type of search done, many or few students may appear
- Try to be specific, but not too specific
- Each heading column in the search results can be clicked to re-organize the search results
 - MSIX ID and State Student ID in numerical/alphabetical order
 - State in alphabetical order
 - Student Name in alphabetical order by last name
 - DOB in chronological order by year
 - Sex in male/female groupings
 - Multiple births in yes/no groupings

Questions?

Using data to help students

- There are two ways to view a student's consolidated record in MSIX
 - *Consolidated View*
 - Shows **only** the most recent enrollment the student has
 - *Historical View*
 - Shows all student information from **all** states where the student has been identified as migrant

Using data to help students

[+] Enrollments

Using data to help students

With your partners/group, view Daisy Lopez's record and address the following:

1. How can viewing her record assist in “pre-recruiting”?
2. How could the information in her record help in completing the COE?
3. How could the information assist in making an eligibility determination?
4. How can the information help to build a mobility profile of the student?
5. Additional ideas/methods

Using data to help students

- “Pre-screen” families before an interview
 - Get a better “feel” of the family
 - Understand their migrant history and potential eligibility
- Rank order families for interviews and/or calls from school new enrollment lists
- Use MSIX to clarify or correct missing or unclear information given during the interview
 - DOB
 - Parent's or student's name
 - Spelling
- If current move doesn't qualify, could find continuing eligibility/qualifying on a previous move
- “Sought but did not obtain” move, provide proof of a migrant history
- Pick up a move the family did not remember or mention during the interview
- Use history of moves to develop mobility patterns and predict when family/youth may return
- Use “send email notification” to ensure student gets recruited in new state
- Use move notifications received from other states to recruit families/youths
- Use immunization information to help student enroll or advise family on documents needed
- Use MSIX information to fill in any blanks or gaps from the interview

Using data to help students

With your groups, address the following scenario:

This student just moved to your area and has no transcripts and the previous school has not responded to any requests. How would you use the information provided to MSIX to build a student profile, determine any special needs the student may have that will need to be followed-up or addressed, and aid in summer program enrollment?

Using data to help students

- Previous enrollment has immunizations – student may not need new ones, leading to expedited enrollment
- Student participated in summer programs in the past
- Determined to be PFS – follow-up with this
- Marked as LEP – follow-up - may need to be retested or not tested at all
- No IEP or medical issues
- Has been in several schools; highly mobile
- Establish residency in the US / Deferred Action
- What would have been a helpful enrollment comment??

Using data to help students

With your groups, address the following scenario:

Daisy Lopez and Vanessa Perez-Alavez just moved into your district. Neither arrived with records and no one is responding to requests for records due to it being summer. You want to enroll both of them in summer camps but want to ensure their educational needs will be met. You also are able to provide them other supplemental services, such as tutors. How would you use these two MSIX screens to serve Daisy and Vanessa?

Using data to help students

Daisy

- Based on her assessment scores, she needs assistance in:
 - Science
 - Social studies
 - Reading
 - Math
- What happened with reading? Look at the drop from her 09 to 2011 score
- Does her LEP status affect her assessments?
- Can this be used to help make a current PFS determination?
- How does the previous PFS determine what services she receives now

Vanessa

- Based on her course history, she needs assistance in:
 - English (1 and 2)
 - Algebra/Geometry
 - Biology/Science
- Can some type of credit recovery or online classes be offered for classes with an "F"?
- Can this be used to make a current PFS determination?
- Could she be working during the summer on curriculum from her home school so she can stay on track, catch up, or get ahead?

Questions?

Producing and Using MSIX Reports

The following reports in MSIX are available to secondary users:

- Student count: a count of students
- Student demographics: a count of students by age, gender, continuation of service reason, and birth location
- Enrollments by MDE Type: a count of students who have an enrollment or enrollment. date by immunization flag, IEP, LEP, MEP project type, PFS, and Med Alert.
- Enrollments in Multiple States: a count of students in the state who have enrollments in other states
- Student Course History: a count of all courses taken by a student
- Student Assessment: a count of all assessments taken
- General Move From: a count of students who have moved from your state to another state
- General Move to: a count of students who have moved to your state from another state

Producing and Using MSIX Reports

- To access reports, click on “reports” on the left hand side of the home screen

Training-1 Secondary, Welcome to MSIX

The MSIX site and all its components are designed to facilitate the exchange of migrant student records for the purposes of school enrollment, placement, and accrual of credit in

MSIX
Migrant Student
Information Exchange

Producing and Using MSIX Reports

A list of reports (according to your level of access) will appear

The screenshot shows the MSIX Reports web application. At the top, there is a header with the U.S. Department of Education logo and the text "U.S. Department of Education Promoting educational excellence for all Americans". Below the header is a navigation bar with links for "Help", "Return to MSIX", and "Logout". The main content area is divided into two sections. On the left is a blue sidebar with a "Student Info" folder icon and a list of reports: "MSIX Student Count", "Student Demographic", "Student Enrollment", "Enrollments by MOE Type", "Enrollments in Multiple States", "Student Course History", "Student Assessment", "Student Mobility", "General Move From", and "General Move To". On the right is the "Home Page" section, which contains a welcome message: "Welcome to the MSIX Reports. You can access the MSIX Reports by clicking on the specific report in the left hand navigation bar. Please do not use the Refresh or the Back button of the web browser. Use only the links provided within MSIX reports to navigate."

Producing and Using MSIX Reports

- All reports (except move from/to) default to the national view and can double click the cell counts to generate a list of students
- To see Michigan data on all reports, click on “Filter” at upper left-hand side on report
- Filter form will differ for each report, but generally allows you to choose date ranges and specific categories (age, grade, LEP, etc.)

		Mexico	Mexico	35			0.88
		Mexico	Michoacan de Ocampo	301			7.53

Producing and Using MSIX Reports

How could the demographics report be used?

- To better understand demographic make-up of students served
- Streamline recruitment efforts
- Develop appropriate programs and services
- Create partnerships
- Gather data for needs assessment and delivery plan
- Determine demographic trends in the state migrant population
- Know which kids are receiving continuation of services and why

	No	3,840		96.02
	Yes	154		3.85
	No Data Submitted	5		0.13

Producing and Using MSIX Reports

How could the enrollments by MDE report be used?

- To determine focus in program planning and designing
- Create visual representations of migrant population
- Identify students at pivotal grades
- Create community partnerships
- Gather data for needs assessment and delivery plan
- Recognize trends in the migrant population
- Identify students who fall into special categories
- Know which students have a Medical Alert

Producing and Using MSIX Reports

Enrollments in Multiple States Report Example

	Vermont	5			1.16

Producing and Using MSIX Reports

How could the Enrollments in Multiple States report be used?

- To develop mobility profiles
- Target states for collaboration
- Transfer student records
- Proper withdrawal of students
- Identify highly mobile students who may benefit from priority for services

Producing and Using MSIX Reports

How could the Move From / To Report be used?

- To identify and analyze mobility trends
- Develop mobility patterns
- Target states for collaboration
- Predict busy periods for planning purposes
- Create international partnerships (move to report only)

Discussion / Closing
